## Professional Experience

**ZornCo** ⎋
*Web Developer*
07/2018 – present

- Sermons.com (current)
  Improving and expanding many areas of the website using AngularJS, JavaScript, HTML, CSS, Bootstrap, PHP, and MySQL.
  Some examples include:
  - Writing a script to sort the lectionary results by category
  - Displaying sorted lectionary results in tabs
  - Creating a batch edit tool so the owner could easily edit content and track progress
  - Remaking the sign-up page with a mobile first layout
  - Writing a PHP script to import XML files into the database

- CreatorsToyChest.com (completed, pending deployment)
  Converted and migrated CreatorsToyChest.com from a WordPress website to a single-page application using Angular 7, HTML, CSS, and Bootstrap

  - Rebuilt the website using mobile first design principles
  - Implemented a page flip script using Angular Material
  - Improved the overall responsiveness and user experience

- Past Projects (Pastor.com and FourScore.io)
  Implemented front end improvements based on design docs and specifications
